

Abeno Ward Emergency MAP

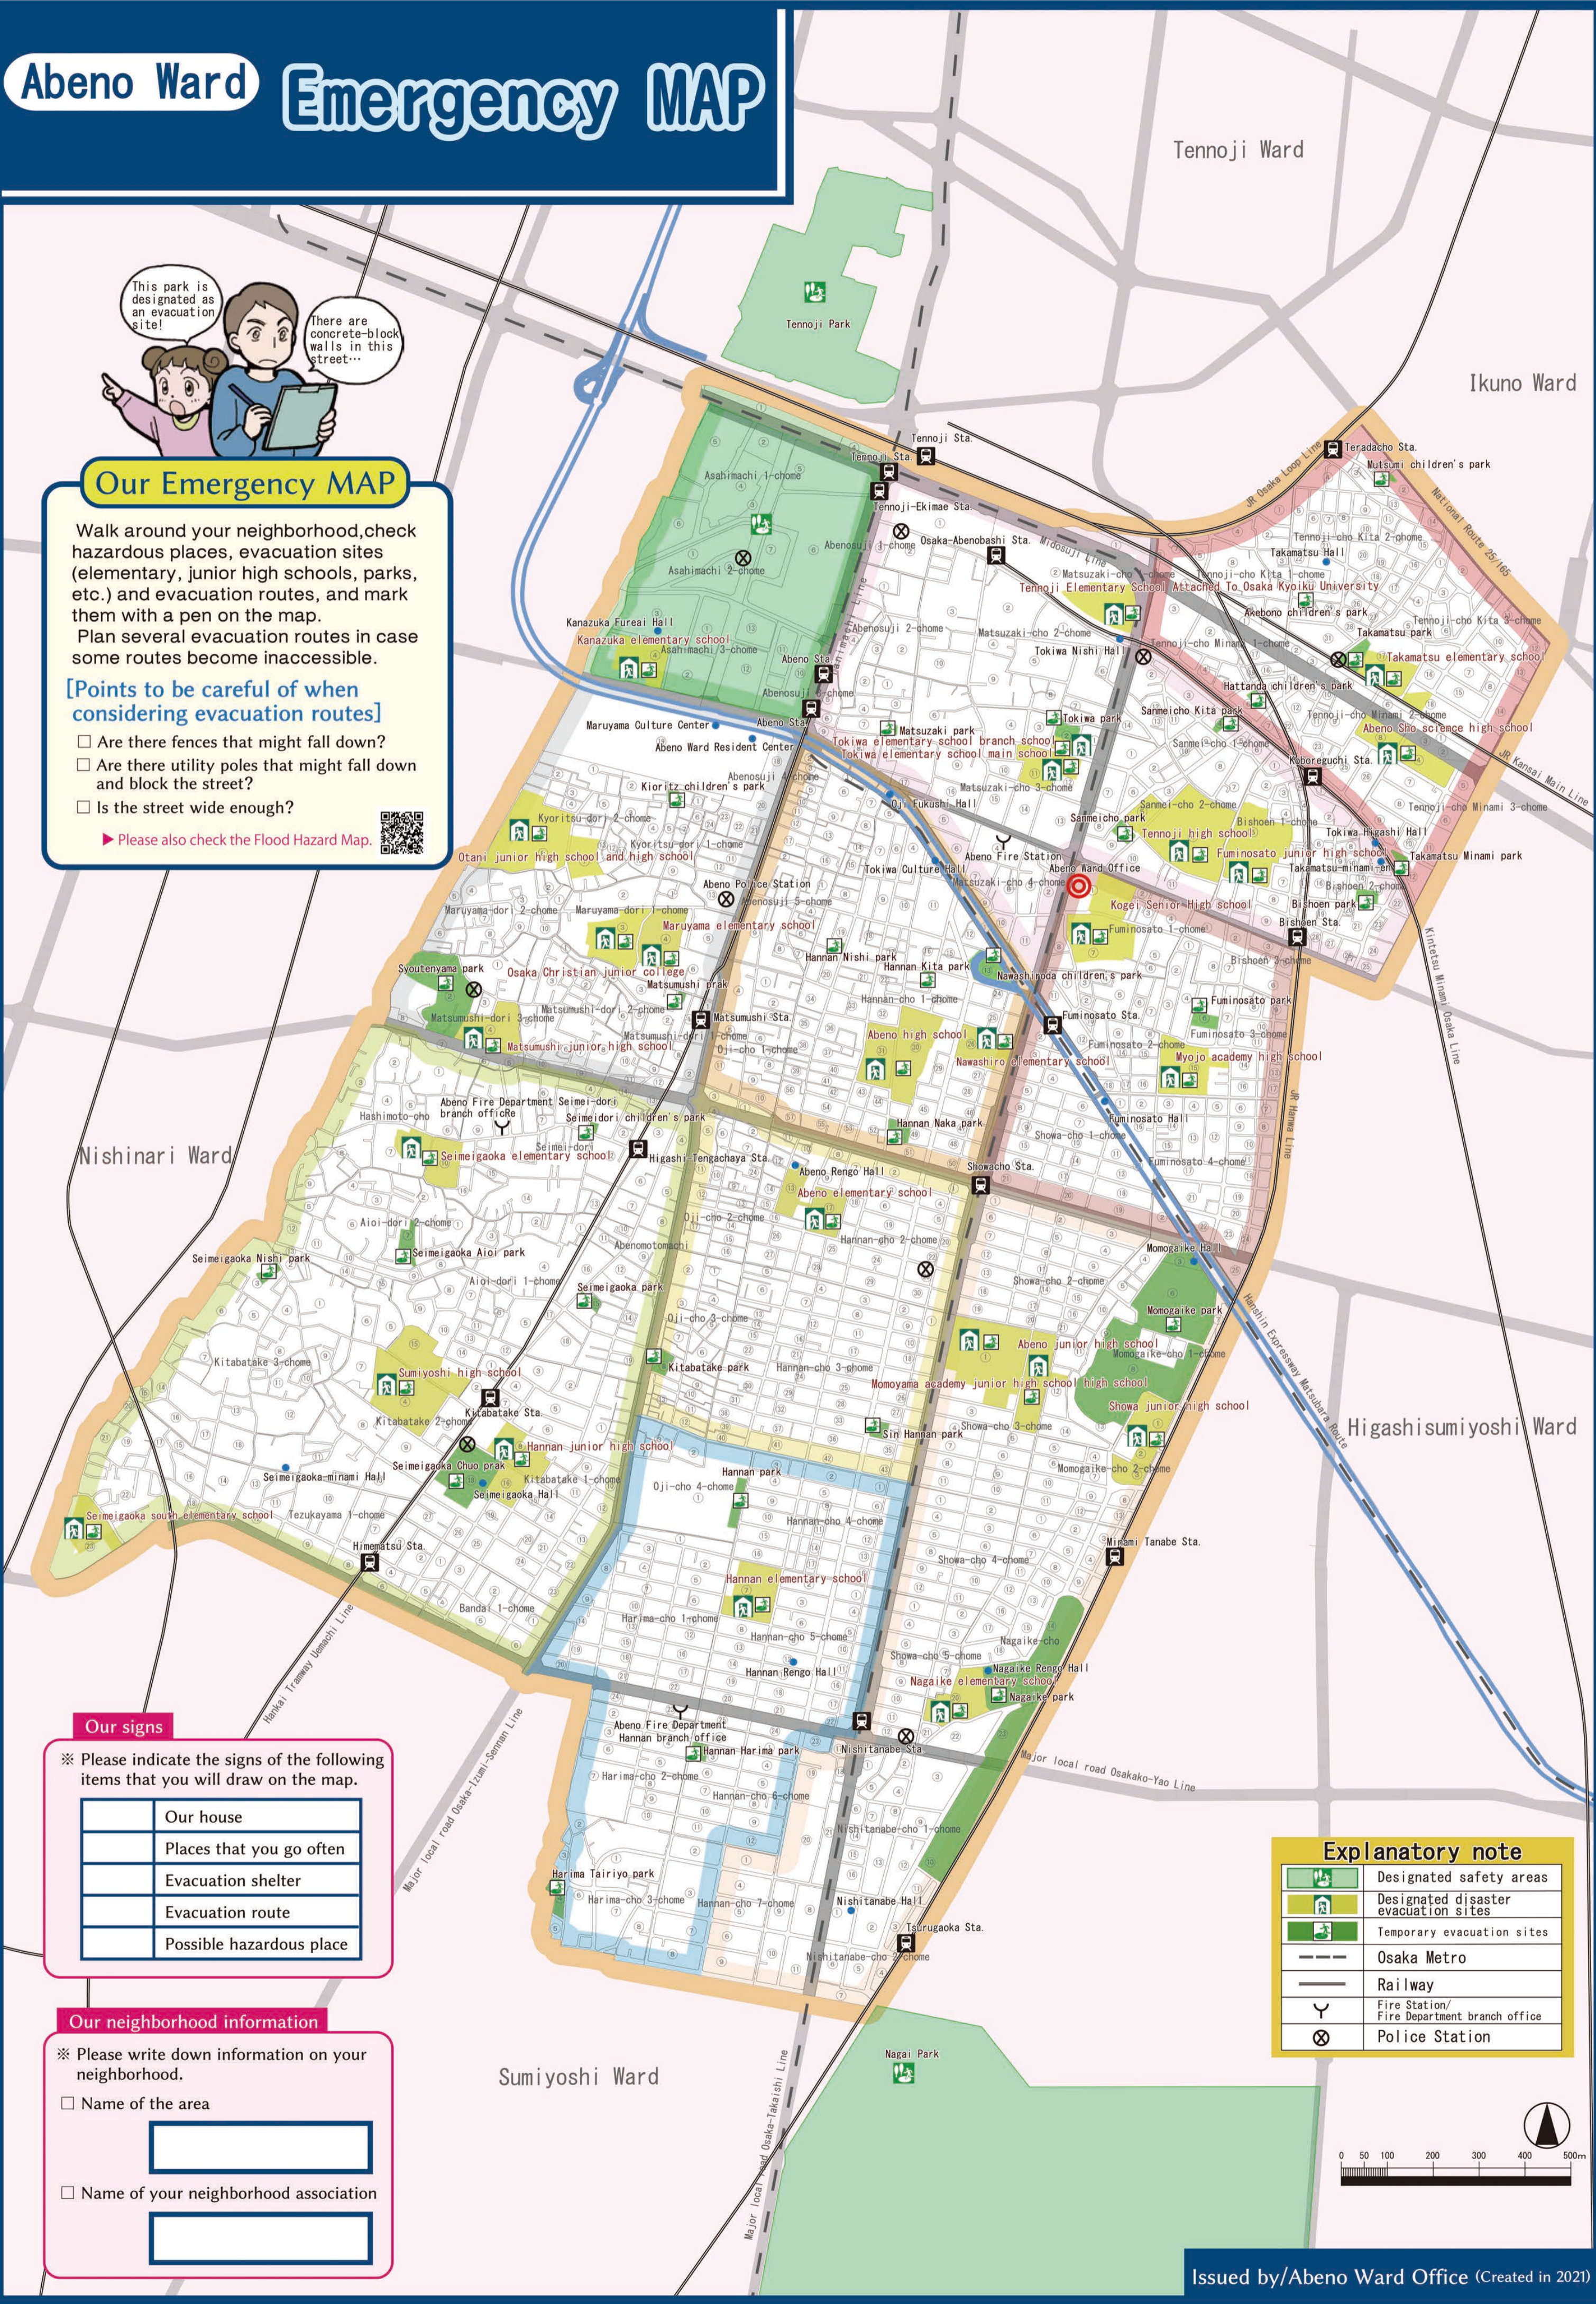

Our Emergency MAP

Walk around your neighborhood, check hazardous places, evacuation sites (elementary, junior high schools, parks, etc.) and evacuation routes, and mark them with a pen on the map. Plan several evacuation routes in case some routes become inaccessible.

[Points to be careful of when considering evacuation routes]

- Are there fences that might fall down?
- Are there utility poles that might fall down and block the street?
- Is the street wide enough?

▶ Please also check the Flood Hazard Map.
