Protect Your Baby's Health!

<p>Examination of congenital metabolic disorders</p>	<p>Hearing test for newborns</p>	<p>Infant general health checkups</p>
--	----------------------------------	---------------------------------------

Sudden Infant Death Syndrome (SIDS)

Do not let babies sleep on their back, but turn them over so that you can see their face.

Shaken Baby Syndrome

Babies' brains are very soft, so shaking them violently can cause severe shock and damage. This can lead to serious disabilities or even death.

Be careful!
