

Declaration of Child Rearing with the Whole Town of Ikuno Ward

## 生野区まちぐるみ子育て宣言

At Ikuno Ward, we aim for a “Town where everyone works together to take care of children,” so that all children would be able to live smiling.

- By greeting each other with a smile, we can create a “town that can raise children through a strong relationship of the people.”
- To make a town where there are many people children and parents can easily talk to and who would listen when they feel burdened.
- We will gather Ikuno ward’s various organizations , companies and individuals’ wisdom and support the “family that raises children in Ikuno.”
- We will make a “town that protects the rights of children,” a town where children can live peacefully and their potential could be expanded.

みんなで育てる  
Let's all raise Ikuno children
