

How Can We Solve the Marine Plastic Waste Problem?

Most marine plastic waste originates on land and flows through rivers before reaching the ocean. That's why how we live our lives on land is crucial.

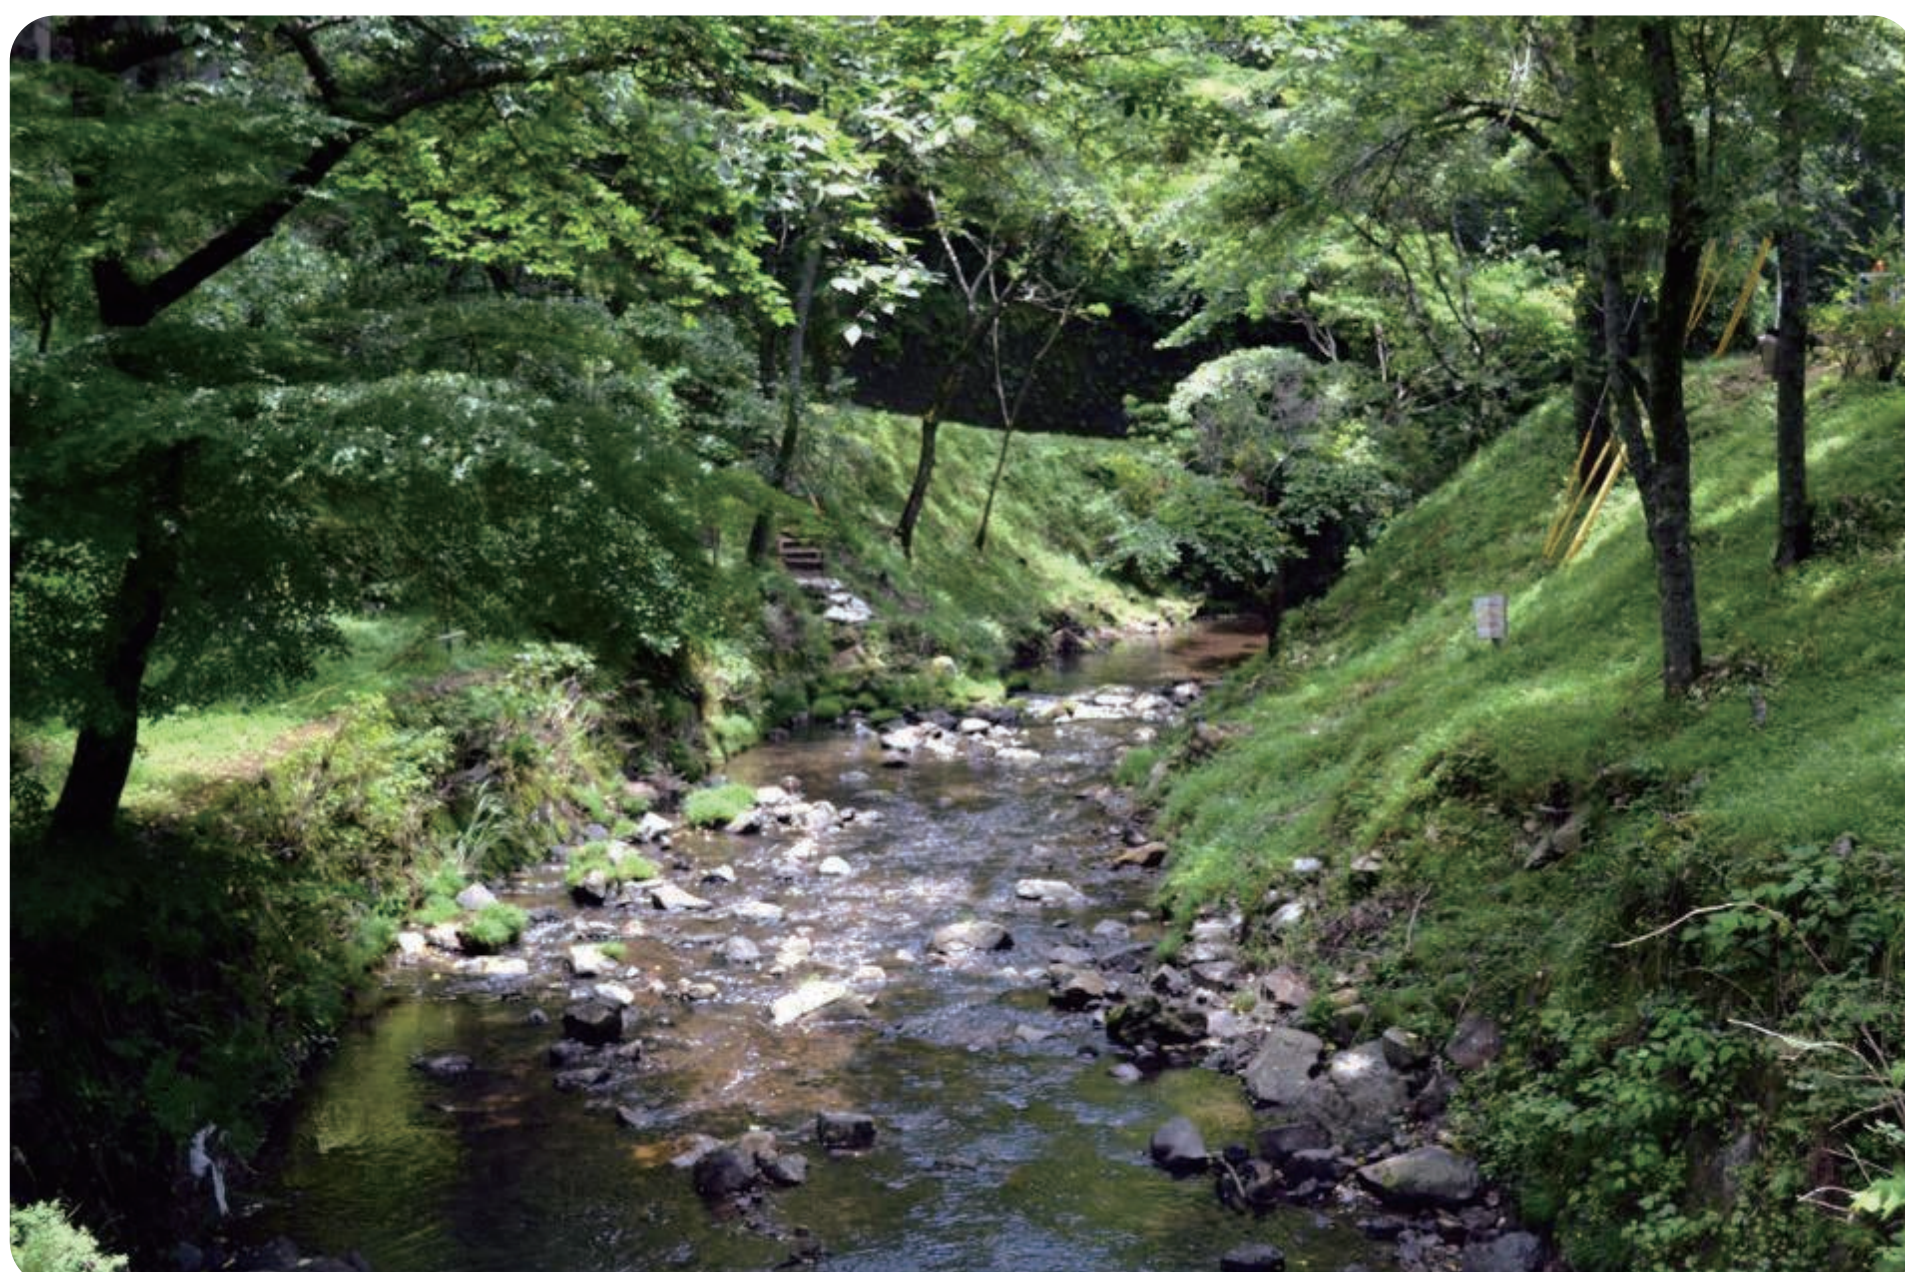

Things We Can Do in Our Daily Lives

1 Let's reduce waste (practice the three R's)!

2 Let's Stop littering!

- Littering is prohibited by law.
- Please dispose of trash in designated spots.
- Take home any trash produced outdoors by the ocean, in rivers, or in the mountains.

Don't litter!

Take home any trash produced outdoors by the ocean, in rivers, or in the mountains.
