

# How Can We Solve the Marine Plastic Waste Problem?

## Things We Can Do in Our Daily Lives

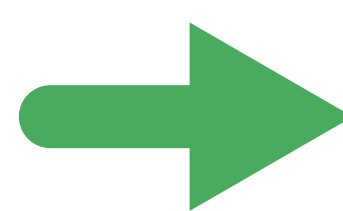

### ③ Let's Participate in clean-up activities!

There are various organizations and NPOs that engage in volunteer clean-up activities.

Your local municipality may also organize clean-up activities.

Before clean up

After clean up

**Why not think about what you can do to reduce waste flowing into the ocean and keep our oceans clean?**

#### (Reference)

Osaka Prefecture and Osaka City formulated the Osaka Blue Ocean Vision Implementation Plan in March 2021, with the aim of helping to achieve the goal of “no new pollution from marine plastic waste by 2050,” which was shared at the G20 Osaka Summit.
