Be on heightened alert

For example:

Stay alert of weather information

Cheek evacuation actions

For example:

- Double check evacuation route on the hazard map
- O Stay alert of the rainfall situation in your area

Evaguata

people regulringtime to evacuate

o.g., the elderly

For example:

- To a safer place that will not flood (incl. 3F or higher), e.g., a relative's home, friend's home, workplace
- To your closest evacuation shelter
- O Double check your emergency grab-and-go bag in preparation for Warning Level 4 (evacuate everyone)

Evacuate quickly to an evacuation site

For example:

- To a safer place that will not flood (incl. 3F or higher), e.g., a relative's home, friend's home, workplace
- To your closest evacuation shelter
- If you feel you are in danger on your way to an evacuation site, go to the nearest safe place

For example:

- To your closest evacuation shelter
- To your closest evacuation shelter (to a flood/tsunami evacuation building)
- To a tall building or other elevated place
- tile is very dangerous to evacuate in a flood.

Your life is in danger. Immediately secure your safety!

For example:

- To your closest evacuation shelter
- To your closest evacuation shelter (to a flood/tsunami evacuation building)
- To a tall building or other elevated place
- Depending on the situation of the river(s) and the disaster, information may not necessarily be released in this order.

It is necessary to respond flexibly to the situation.
