

Flood Hazard Map for Konohana Ward

In Konohana Ward, inundation events due to flooding of the Yodo River, a storm surge, and inland flooding and tsunami inundation events due to a Tonankai earthquake, a Nankai earthquake, and a massive Nankai Trough earthquake are assumed to occur.

- Is the area where you live prone to inundation?
- Where is the nearest safe evacuation shelter?
- Are there any roads or underpasses that could be covered with water on the way to the evacuation shelter?

Using this map, check in advance where safe evacuation shelters (disaster shelters, etc.) are located and which evacuation route to take to ensure safe evacuation in the event of an emergency. In the event of a large-scale inundation, disaster shelters are expected to be crowded. If evacuation shelters are located far from your house, you should expect that it will take time for the elderly to evacuate. It is also important to secure more than one temporary shelter other than predesignated evacuation centers, such as securing condominium or other high buildings in the neighborhood by negotiating with owners in advance. Moreover, since it is dangerous to move out of your house during stormy weather, remaining in your house can be an alternative to evacuation as long as you have made appropriate disaster preparations at home.

Regular precautions and preparations

Have items ready that you can bring with you when you evacuate (emergency kit)

Items for emergency grab-and-go bag (backpack, etc.)

- Drinking water**: Bare minimum, don't want it too heavy (about 2 to 3 500 ml PET bottles)
- Emergency food**: Food that is easy to eat, doesn't expire quickly, can be eaten without cooking
- Valuables**: Cash (10 yen coins for payphone), bankbook, personal seal, copies of health insurance card and driver's license, etc.
- Medical supplies**: Disinfectant, bandage, triangular bandage, etc.
- Other**: Whistle, Thick gloves (work gloves), Clothes (underwear, underwear, socks), Portable heat patches, Plastic bag and wrap, Toiletries, hygiene products, masks, Shoes with durable soles, Dry cell and mobile batteries, Portable toilet, Tissues and wet wipes, Flashlight and lantern, Radio, Helmet and protective hood
- Rolling stock method**: An economical method in which food is consumed before they expire.
- People with illnesses**: Contact info for attending physician, Medicine for preexisting illnesses, Medicine notebook, etc.
- Pets**: Leash, Cage, Toilet supplies, Pet food, etc.
- Pregnant women**: Mother and child health handbook, Absorbent cotton Gauze, Items for newborns, etc.

Have your stockpile ready

You may not be able to shop normally for several days after a natural disaster. Have peace of mind by adequately stocking basic necessities for yourself and your family on a day-to-day basis.

- Daily stocking**: Alpha rice that can be eaten by adding water, canned food, hardback, instant and retort pouch food, dietary supplements, snacks, condiments, soup, etc.
- Food for at least 7 days**: Alpha rice that can be eaten by adding water, canned food, hardback, instant and retort pouch food, dietary supplements, snacks, condiments, soup, etc.
- Drinking water for at least 7 days**: 3 liters a day per adult
- Toilet supplies**: Temporary toilet, waste storage containers, toilet bags, toilet paper
- Fuel**: Portable gas stove, gas canisters, solid fuel
- Blanket, sleeping bag**: Plastic wrap for food, Plastic tank

- Tide gate assumed to be open (managed by Osaka Prefecture)
- Tide gate assumed to be open (managed by Osaka City)

***This map shows hazard areas for flooding (river flooding, high tide, inland flooding, tsunami). It does not list designated safety areas and temporary safety areas. Please use this hazard map to find safe evacuation areas in the event of flooding.**

***Flood-prone areas have underground shopping and facilities for the infirm. Please see the Regional Disaster Management Plan for more information. (The Regional Disaster Management Plan is available at your closest ward office, City Hall, and on Osaka City's website.)**

Safety measures for your house

Reduce the likelihood of your house being inundated and your home contents damaged.
