

Flood Hazard Map for Yodogawa Ward

In Yodogawa Ward, inundation events due to flooding of the Yodo River, Kanzaki River, Tenju River, and Taka River, a storm surge, and inland flooding and tsunami inundation events due to a massive Nankai Trough earthquake are assumed to occur.

- Is the area where you live prone to inundation?
- Where is the nearest safe evacuation shelter?
- Are there any roads or underpasses that could be covered with water on the way to the evacuation shelter?

Using this map, check in advance where safe evacuation shelters (disaster shelters, etc.) are located and which evacuation route to take to ensure safe evacuation in the event of an emergency. In the event of a large-scale inundation, disaster shelters are expected to be crowded. If evacuation shelters are located far from your house, you should expect that it will take time for the elderly to evacuate. It is also important to secure more than one temporary shelter other than predesignated evacuation centers, such as securing condominium or other high buildings in the neighborhood by negotiating with owners in advance.

Moreover, since it is dangerous to move out of your house during stormy weather, remaining in your house can be an alternative to evacuation as long as you have made appropriate disaster preparations at home.

Note:
When evacuating to a tsunami evacuation building, evacuate only after checking that it is located on a high place that will not be inundated.

Safety measures for your house

Reduce the likelihood of your house being inundated and your home contents damaged.

Tsunami evacuation bldg. (Accepts evacuees if an evacuation information is issued*)

Regular precautions and preparations

Have items ready that you can bring with you when you evacuate (emergency kit)

Items for emergency grab-and-go bag (backpack, etc.)

- Drinking water
- Emergency food
- Valuables
- Medical supplies
- Other

Necessities for applicable families and households

- Infants
- Pregnant women
- Elderly
- People with illnesses
- Pets
- Other

Have your stockpile ready

- Drinking water for at least 7 days
- Toilet supplies
- Fuel
- Blanket, sleeping bag
- Plastic wrap for food

Rolling stock method

An economical method in which food is consumed before they expire.

Map information site, MapNavi Osaka

Hazard maps and disaster prevention facilities can be found online.

*This map shows hazard areas for flooding (river flooding, high tide, inland flooding, tsunami). It does not list designated safety areas and temporary safety areas. Please use this hazard map to find safe evacuation areas in the event of flooding.

*Flood-prone areas have underground shopping and facilities for the infirm. Please see the Regional Disaster Management Plan for more information. (The Regional Disaster Management Plan is available at your closest ward office, City Hall, and on Osaka City's website.)
