

Transmission of information

* Disaster Emergency Message Boards become available when a major disaster occurs. For service details, please see the explanation provided by NTT and the respective mobile phone companies.

What is My Timeline?

My Timeline provides an opportunity to prepare for wind and flood disasters, such as heavy rains and typhoons, and plan in advance how to escape using your own evacuation route while giving due consideration to the circumstances or evacuation behavior of each family member. Creating a schedule that summarizes who does what and when will help you act in an appropriate manner in the event of an emergency.

lsunami warnin

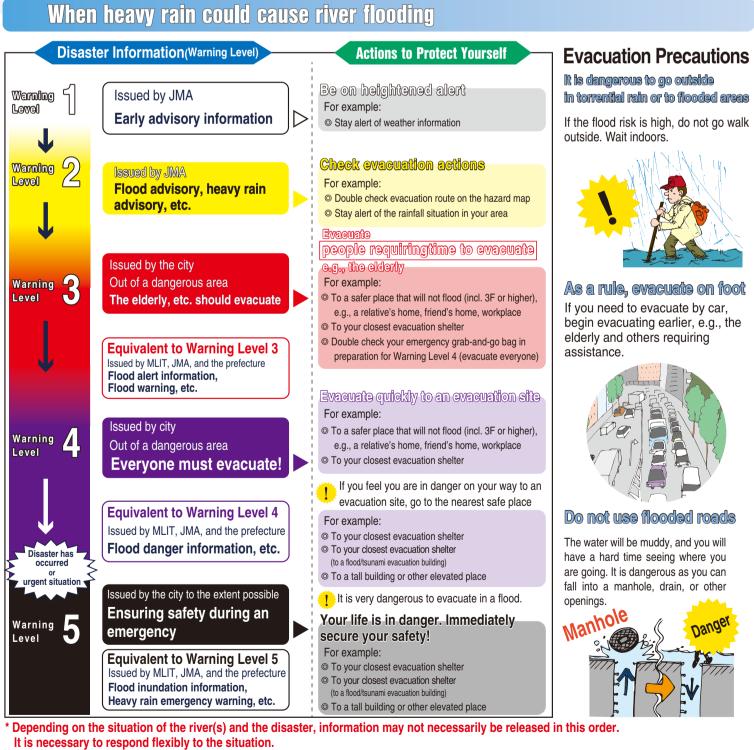

igh tide)

If you did not escape in time, run and climb up a tall

building or other elevated place

Stay alert of tsunami information

How Will You Evacuate?

Depending on the wind and rain situation,

Evacuate to a safe place in your home that will

Evacuate early to a place that is unlikely to flood.

home, a friend's home, or workplace.

Your options may include evacuating to a relative' s

due to shallow flooding, low risk of house collapse, etc.

Do not go outside if it is unwise

due to deep flooding, high risk of house collapse, etc.

check if it is open

If you can stay at home

it may be safer to stay at home.

If you cannot stay at home

Evacuate early

not flood.

About flood disaster evacuation buildings

Osaka City is working to secure flood disaster evacuation buildings, which will serve as temporary or emergency facilities for protecting people's lives from river flooding and tsunami. Know where your closest flood disaster evacuation buildings are in case of an emergency.
