

What are the places for evacuation?

Evacuation Center in Times of Disasters

A facility where people, who can't live at their homes because it is flooded or collapsed, can lead a refuge life.
Ex) school gym

Temporary Evacuation Areas

The place where we think about the following action at temporary shelter when disaster happens like earthquake. Ex) parks, open spaces, school grounds

Extensive Evacuation Areas

Wide area where people evacuate from a disastrous fire. It is not a place to evacuate from tsunami.

*There are equipment and food stored in evacuation centers, such as schools, etc.

However, there is a limit to these, so **it is important that you store for yourselves!**
