

# Overview of Konohana Ward

Located at the southern end of the mouth of the Yodo River, Konohana Ward is long from east to west but short from north to south.

The eastern part of the ward has long been a residential area, and we are striving to create a pleasant and comfortable living environment here.

In the central part of the ward, we reclaimed land where the Shorenji River once flowed, and development is underway on Shorenjigawa Park, which, once completed, will be approximately five times the size of Koshien Stadium.

The waterfront area has bustling with visitors since Universal Studios Japan (USJ) opened in 2001.

Equipped with a variety of recreational facilities and beautiful views of New Sunset Hill, Maishima is a resort area that you can't experience in the city center.

Finally, Yumeshima will host Expo 2025 Osaka, Kansai.

Area **19.30 km<sup>2</sup>**  
(2nd largest of Osaka's 24 wards)

Population **63,613**  
(as of October 1, 2024)
