

# Expo 2025 Osaka, Kansai **Attractions!**

Experience the culture and history of different countries by visiting the various Country Pavilions like you're traveling on a holiday!

You can also learn while having fun from the many hands-on experiences, including opportunities to think about the future of society and food, sustainability, and life itself.

## Country Pavilions

Over 160 countries, regions, and international organizations will introduce their latest technologies and unique cultures.

### Austria Pavilion

© BWM Designers & Architects

Austria is a country of music. The spiral exterior, which is reminiscent of sheet music, allows you to experience the diversity and creativity of the country. You can also enjoy traditional Austrian sweets.

**You might even meet Heidi, the girl of the Alps!?**

### Switzerland Pavilion

© Presence Switzerland

Come experience the inventive spirit of Switzerland! This is the lightest pavilion ever built by Switzerland for an Expo. You might even meet Heidi!

### Luxembourg Pavilion

© STDM/jangled nerves

The theme of the Luxembourg Pavilion is "Doki Doki – The Luxembourg Heartbeat". The pavilion's experiences will make the hearts of visitors beat faster, and traditional cuisine will also be served.

### Italy Pavilion

The pavilion will introduce Italian art works and hold operas and other events. It also houses an exhibition space for Vatican City, marking its first time to join an Expo. There is a rooftop restaurant, where you can enjoy Italian cuisine while looking out over the garden.

### Monaco Pavilion

© Jerome Hein Architecte & Atelier Pierre

The theme of the Monaco Pavilion, "Take Care of Wonder", aims to raise visitors' awareness of environmental issues both inside and in the garden outside. The wine bar inside the pavilion will serve carefully selected wines and cognacs.

## Enjoy food as well as culture!

### Sustainable Food Court Osaka Noren Meguri — Food and Festival Expo

Osaka is a city of food lovers, and the food court offers popular local cuisine such as kushikatsu and takoyaki. Based on the theme of "next-generation restaurants", robots will welcome visitors alongside the staff.
